
QUALITY POLICY

As SenapaStampa, which performs plastic bottle design, production and sales activities for food and non-food products,

We declare that;

- ▣ To be recognized as a provider of good service and quality products and technology, to follow technological developments for lower cost and higher efficiency,
- ▣ To be sensitive to customer needs and expectations, in this understanding to be a pioneer in national and international market,
- ▣ To do right thing in the shortest time and to provide the highest quality with the most reasonable cost,
- ▣ To ensure that employees take on more responsibilities through the participatory management environment and to combine experience, knowledge and energy,
- ▣ To define each process within the framework of Quality Management System and ensure that these processes are carried out efficiently and continuously improved and developed,
- ▣ To provide continuous improvement and progress,
- ▣ To accept as a duty to realize production above quality expectations with the participation of all employees and with the understanding of quality coming from past,
